

## NEBOSH International General Certificate

The NEBOSH International General Certificate in Health and Safety is one of the most popular health and safety qualifications in the world. It is the first step in building your international health and safety career!

Designed for managers, supervisors and employees, the IGC is an essential qualification. Therefore, this qualification is for anyone working in or wanting to work in safety and health anywhere in the world. It gives you important knowledge and skills as well as a globally respected qualification. Furthermore, it supports your current role and your long-term career.

### Course Content

**The NEBOSH International General Certificate is made up of two units:**

#### **Unit GIC1: Management of Health and Safety**

- Foundations in health and safety
- Health and safety management systems - Plan
- Health and safety management systems - Do
- Health and safety management systems - Check
- Health and safety management systems - Act

#### **Unit GIC2: Risk Assessment**

- Workplace hazards and risk control
- Transport hazards and risk control
- Musculoskeletal hazards and risk control
- Work equipment hazards and risk control
- Electrical safety
- Fire safety
- Chemical and biological health hazards and risk control
- Physical and psychological health hazards and risk control

### Assessment

Unit GIC1 of the **NEBOSH International General Certificate** is assessed by an open book exam and is therefore completed at home. The second unit, GIC2, is a practical assessment carried out in your workplace.

**You can sit the exams at different times, you do not need to sit both in the same month. For example you can sit the GIC1 exam in June and then you can sit the GIC2 exam in October if you wish.**
